THE CONNECTED ASSOCIATE

There are many interpretations of what “The Connected Associate” looks like. Here at RAM® Mounts, we believe that The Connected Associate brings together the power of mobile devices, software, and accessories to enable an efficient workforce, all-in-one ecosystem of products. Our extensive ecosystem of enterprise-ready products has been carefully designed to support associates during every step of the freight management process, including transportation and logistics, material handling, inventory tracking, item picking, and more. For decades, RAM® Mounts has helped thousands of companies keep their devices protected and charged, adopt safety standards, and ruggedize their mobility.

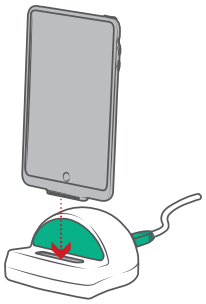
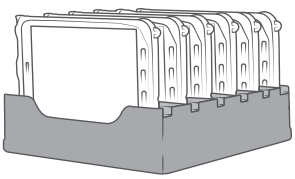
THE ECOSYSTEM

Connecting and protecting devices comes down to two things: ruggedized mounting and charging. RAM® Mounts designs and manufactures reliable docks and mounts that shield devices from damage, keep devices charged, and futureproofs the entire solution by creating an ecosystem of products that work together.



GDS® docking stations allow you to leverage Samsung DeX, transferring device functions to a desktop experience

Transfer the same devices to compatible RAM® docking stations for a wide variety of vehicles



Multi-port docking stations keep devices charged overnight, reducing clutter and damage to charging ports

MODULAR DOCKS

The RAM® Modular Powered Dock series for Samsung Tab Active3 are thoughtfully designed to meet the demands of commercial truck drivers, field service technicians, pupil transporters, logistics managers, forklift operators, and more. Power capabilities through the dock are provided to the device through pogo pin technology, taking advantage of the Tab Active3's pogo pad docking contacts—simply dock the device for a seamless charging experience.

OTTERBOX UNIVERSE DOCKS

In collaboration with Samsung and OtterBox, RAM® Mounts has designed new form-fit powered docks for the Samsung Galaxy Tab Active3 featuring uniVERSE compatibility. These docks come in both single and dual USB peripheral support—turning your Tab Active3 into a mobile workstation when paired with a GDS® Keyboard™, printer, scanner gun and more, via USB Type-A connectors. Equipped with an OtterBox uniVERSE accessory holder, store and connect uniVERSE modules like the GPS Spike, Square Chip Reader Adapter, and more for an efficient workflow.

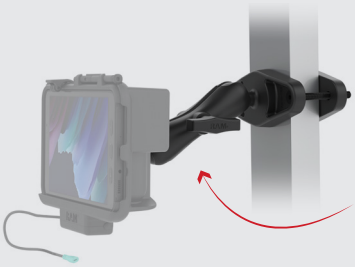
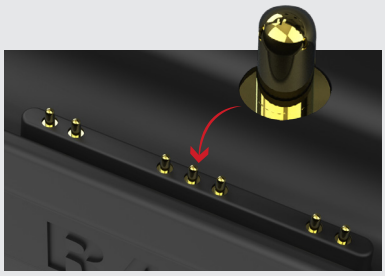
FEATURES

RAM® EZ-Roll'r™ form-fit dock perfectly secures the Tab Active3 with OtterBox uniVERSE making insertion and removal easy



Compatible with B and C size RAM® 4-hole AMPS pattern bases for attaching a double socket arm; ball and socket technology allows for near-infinite adjustability



Integrated pogo pin contacts provide charging power to the device and protects the device's ports from constant plugging and unplugging

These docks include an integrated OtterBox uniVERSE accessory holder on the back of the holder to accommodate any accessory with a uniVERSE module. The additional cavity in the back of the dock allows room for the GDS® Hand-Stand™ and shoulder strap accessories.

POWERED DOCKS WITH SPEAKER BOX

Featuring integrated dual speakers for amplified audio, these powered docks for the Samsung Tab Active3 & 2 retain all the same capabilities as the other RAM® EZ-Roll'r™ powered docks, including single and dual USB peripheral support and S pen accessibility. With the built-in hardwire charger, power capabilities are provided to the device through pogo pins. Pair these docks with any RAM® components containing the universal AMPS hole pattern and make the most of your on-the-go solution by connecting GDS® Hand-Stand™ and shoulder strap accessories.

FEATURES

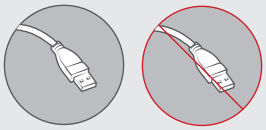
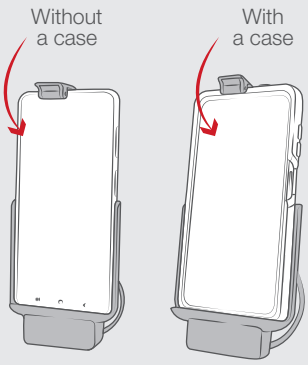
Locking & non-locking options available



Powered & non-powered options available



Solutions for XCover Pro with case, without a case, and with an OtterBox uniVERSE case

SAMSUNG XCOVER PRO & FIELDPRO

Both the Samsung XCover Pro & FieldPro take some of the best features of current Tab Active tablets by introducing the pogo-pad technology for charging purposes. RAM® supports these kinds of innovations with pogo-pin enabled powered docks. Of course, with a non-powered option available, the RAM® EZ-Roll'r™ system supports the Samsung XCover Pro without a case as well as an option for OtterBox uniVERSE-wrapped XCover Pros. Simply drop the device into the powered cradle and the aligned pogo-pins to pogo-pads instantly starts charging.

IntelliSkin® Next Gen with LED Light for Samsung Tab A 8.0 (2018)

INTELLISKIN®

IntelliSkin® is a protective sleeve for phones and tablets featuring GDS® Tech™ with pogo pin technology and military-grade drop protection. With an integrated GDS® connector molded directly into each skin and ruggedized docking contacts on each skin's exterior, IntelliSkin® is designed to extend the life of devices by preventing damage to the charging port from repetitive docking.

The IntelliSkin® Next Gen protective sleeve includes all the great features of the original IntelliSkin® while adding several enhancements. An insert molded redesign of the skin combines a hard plastic shell with soft, shock-absorbing rubber. Ruggedized contacts for repetitive docking remain on the exterior, but are now flat to collect less dirt and allow for easier cleaning. An integrated USB Type-C connector at the bottom of the skin allows for device charging even when you don't have a GDS® Dock™ available.

RAM-GDS-SKIN-SAM84

Interchangeable top cups

GDS® VEHICLE DOCKS

GDS® Vehicle Docks offer a universal charging platform for any device wrapped in an IntelliSkin® sleeve. IntelliSkin® offers drop protection and uses ruggedized external contacts to allow for repetitive docking, with no need to deal with charging cables. The main advantage of GDS® Vehicle Docks is the interchangeable top and bottom cups. Simply switch out either cup depending on the device you plan on docking instead of purchasing new docks. New top cups for IntelliSkin® Next Gen-wrapped devices feature universal positioning marker for a clean docking experience.

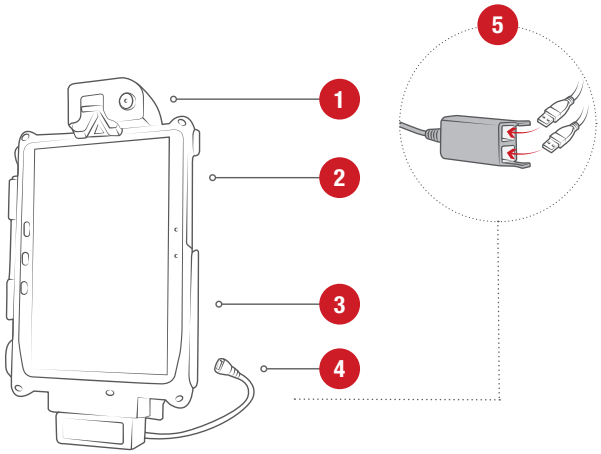
GDS® TOUGH-DOCK™

The GDS® Tough-Dock™ is the newest vehicle docks in the GDS® Tech™ line of vehicle docks designed to support select Samsung Galaxy tablets in an IntelliSkin® Next Gen protective sleeve for your fleet. Take advantage of a USB Type-C connector, supporting data sync, and fast charging capabilities.



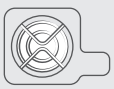
RAM-GDS-DOCKLF-SAM67CPU
Locking GDS® Cool-Dock™ with USB Type-C
for Samsung Tab A 8.4 SM-T307

FEATURES

1 LOCKING & NON-LOCKING
Secure your device for theft deterrence with a key-locking option available for all GDS® Tough-Dock™ and GDS® Cool-Dock™ models.

2 GDS® HAND-STAND™ COMPATIBLE
The GDS® Tough-Dock™ and GDS® Cool-Dock™ have integrated space for GDS® Hand-Stand™ attachments on the back of your IntelliSkin® Next Gen-wrapped device.

3 TEMPERATURE ACCESSORY-READY
Dedicated housing on the back of the dock allows for easy installation of temperature control modules such as the RAM® Vent-Temp™, RAM® Temp-Right™, and GDS® 12V Axial Cooling Fan.



4 STANDARD & HIGH SPEED POWER OPTIONS
All GDS® Tough-Dock™ and GDS® Cool-Dock™ models are available in and support USB Type-C connections.

5 CONNECT YOUR KEYBOARD & OTHER PERIPHERALS
Customize your mobile workstation with peripheral add-ons that help improve your workflow. The GDS® Ecosystem™ makes it easy to choose different peripherals designed to work perfectly with the GDS® Tough-Dock™ and GDS® Cool-Dock™.

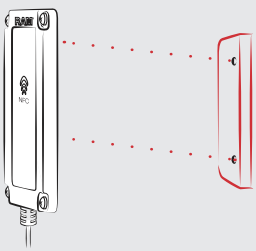
Direct-to-Dock: 90° Bracket



Direct-to-Dock: Low-Profile

RAM® NFC REACH™

RAM® Mounts takes NFC scanning to the next level with the brand new RAM® NFC Reach™ by adding an NFC repeater to your Samsung Galaxy Tab Active3. With this NFC repeater, tablet operators no longer need to remove the device from its docking station to scan—simply install the repeater on your docking station and give easy access to programs like tap-to-pay, asset tracking, time management, and more.

Choose from four mounting options for the NFC Repeater

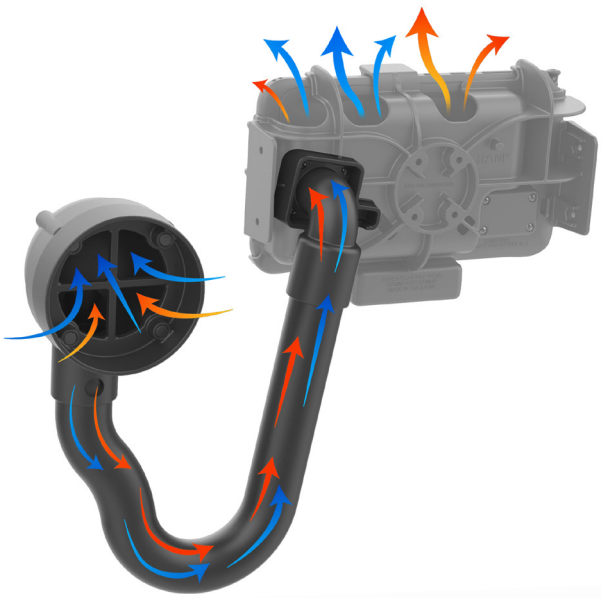
TEMPERATURE CONTROL PRODUCTS

Located at the back of your dock is an empty housing for upgrading your mounting solution. This housing can accommodate various temperature modules provided by RAM® Mounts. Easily install either the RAM® Vent-Temp™, which connects to your vehicle's A/C vents or the RAM® Temp-Right™, which provides regulated heat in extremely cold environments.

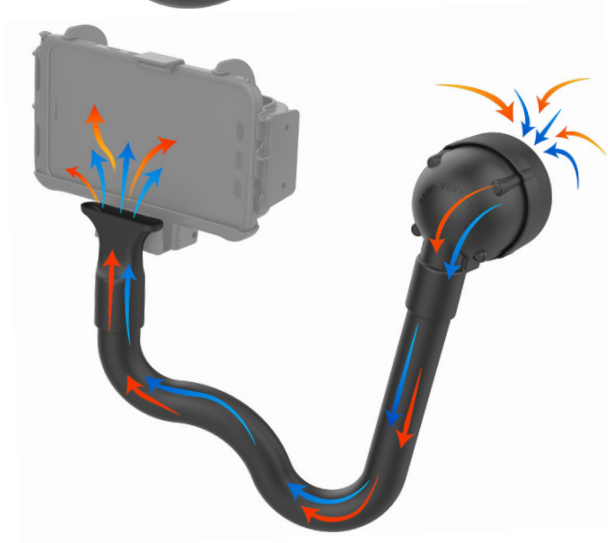


RAM® VENT-TEMP™
BACK NOZZLE ATTACHMENT

Hot or cold air from your vehicle's air system enters through the RAM® Temp-Right™ nozzle, travels through flexible tube, and exits behind the docked tablet.

RAM-VENT1-RCT-50U
RAM® Vent-Temp™ with Back Dock Connection for Rectangular Vents

RAM-VENT1-RND-50U
RAM® Vent-Temp™ with Back Dock Connection for Round Vents



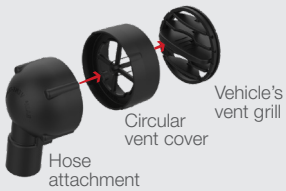
RAM® VENT-TEMP™
FRONT NOZZLE ATTACHMENT

Hot or cold air from your vehicle's air system enters through the RAM® Temp-Right™ nozzle, travels through flexible tube, and exits in front of the docked tablet.

RAM-VENT2-RCT-50U
RAM® Vent-Temp™ with Front Dock Connection for Rectangular Vents

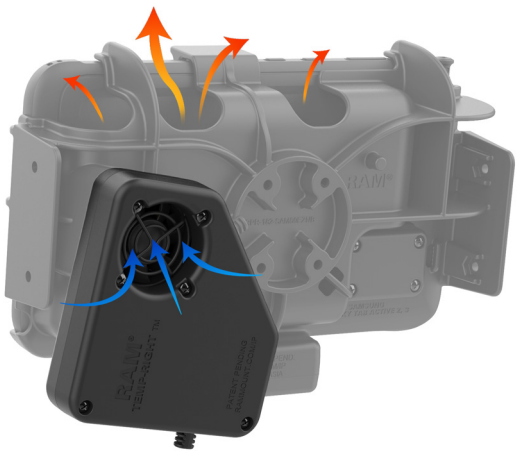
RAM-VENT2-RND-50U
RAM® Vent-Temp™ with Front Dock Connection for Round Vents

FEATURES



Vent cover attaches directly to circular vents using zip ties

Hose attachment includes built-in magnets for easy break-away when not in-use



RAM® TEMP-RIGHT™

The RAM® Temp-Right™ heater module regulates device temperatures to maintain functionality in extreme cold environments and contains integrated 11-16VDC hardwire charger. Cabin air gets sucked through Temp-Right™ fan and through the module, heating the air up to the right temperature needed for tablet functionality.

RAM-TC-SAM29U
RAM® Tough-Case™ with USB Type-A for Samsung Tab Active3 & 2

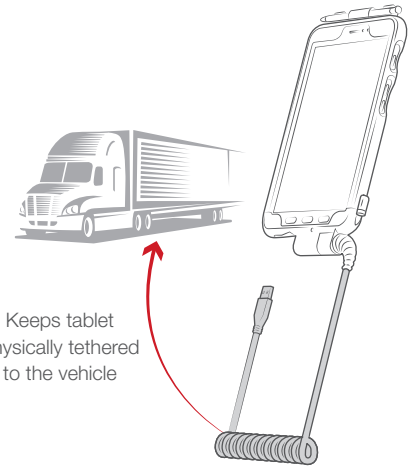
FEATURES

Oversized strain relief protects cable connection

Open enclosure on front and back allows heat to flow from device.

RAM® TOUGH-CASE™

The RAM® Tough-Case™ is a rugged two-piece enclosure with a built-in coiled power cable that tethers the device inside of any vehicle. This case allows you to create a hardwired connection to the tablet using a custom USB Type-C connector with a stretch of up to 7 feet, which offers maximum tablet mobility while staying connected. Your connection will remain secured and protected with the use of oversized strain relief built into the RAM® Tough-Case™ making this the ideal ELD mounting solution for current Samsung tablets.



Keeps tablet physically tethered to the vehicle

RAM-HOL-TC-SAM29FU
RAM® Tough-Case™ Holder with Fan for Samsung Tab Active3 + More

RAM® TOUGH-CASE™ HOLDER

To accommodate the RAM® Tough-Case™-wrapped device, an appropriate form-fit cradle snaps it into place with ports and S pen holder exposed for full access to your Samsung tablet. Equipped with a built-in fan, this holder combats high temperature environments as well as overheating. With the RAM® Tough-Case™ holder taking up minimal space, this solution is ideal for ELD mounting.

UNIVERSAL HOLDERS

RAM® TAB-TITE™ & TAB-LOCK™

The RAM® Tab-Tite™ & Tab-Lock™ are rugged, universal tablet holders that are available in locking and non-locking options, can support tablets with or without a case, and can be mounted virtually anywhere. The spring-loaded design makes it easy to insert and remove your tablet while keeping it secure. The RAM® Tab-Tite™ & Tab-Lock™ product lines are future-proof—simply modify the holder with interchangable top and bottom cups when upgrading your device.

GDS® Ecosystem™ Vehicle Bundle with Monitor, Keyboard & Phone Mount

SAMSUNG DEX IN-VEHICLE

RAM® Mounts has partnered with Samsung to support the Samsung DeX platform by enabling the system in-vehicle. Samsung DeX allows you to consolidate your workflow through a Samsung phone while RAM® Mounts allows you to transform your vehicle into a mobile workstation with the help of familiar peripherals that emulate a desktop experience.

The GDS® Ecosystem™ Bundle is the all-in-one solution for introducing Samsung DeX into your workflow. This bundle includes a GDS® View™ 13.3" touchscreen monitor, a GDS® Keyboard™, display bracket, universal vehicle mount, phone mount, and hardwire chargers to transform your vehicle into a mobile office. Simply insert your DeX-enabled Samsung phone and connect your device to the workstation so you can work on the go.
