IntelliSkin® Next Gen

Wrap your Zebra ET401 or ET40/ET45 in an IntelliSkin® Next Gen sleeve to unlock the GDS® Ecosystem™. The integrated USB-C connector converts power and data to pogo pad contacts, enabling seamless charging and peripheral support with compatible GDS® Docks™.

BUILT FOR

IntelliSkin®

Drop Protection

IntelliSkin® sleeves are MIL-STD-810H drop protection certified, protecting your devices from shock and impact up to 4 feet.

Port Protection

IntelliSkin® is the only case system on the market that protects the device port and converts that connection point to ruggedized pogo pads.

Pogo Pin Connection

Unlock the GDS® Ecosystem™ of docks built with an integrated Distinctive D Shape™ pogo pin connector for a hassle-free user experience and enhanced durability.

USB-C Access

An integrated external USB Type-C port is conveniently accessible for charging and data when a GDS® Dock™ is not available.

ET401

IntelliSkin® H Series

Enclose your Zebra ET401 in the sleekest IntelliSkin® model to date. H Series is a two-piece enclosure with rear pogo pads designed specifically for retail, home automation and hospitality environments.

BUILT FOR

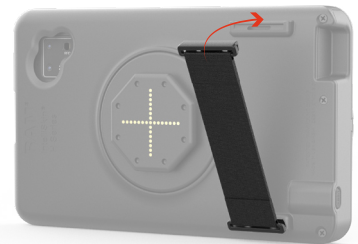

Two-Piece Enclosure

Easily slide the ET401 into the hard composite shell and secure with three simple screws. H Series case comes with the option to hide buttons for display-only purposes.

Pogo Pin Connection

Unlock the GDS® Ecosystem™ of docks built with an integrated pogo pin connector for a hassle-free user experience and enhanced durability.

Optional Hand Strap

Add a snap-on elastic hand strap for a more secure, comfortable grip. H Series also comes without the hand strap for a slimmer profile.

BUILT FOR

Desktop Docks

Magnetic Uni-Conn™ docking connectors make it easy to dock in portrait or landscape while providing power to the tablet.

Kiosk Docks

Unlock a mPoS workflow with this detachable tilt and swivel powered kiosk dock for tablets.

Wall & VESA Docks

Replace wall outlets or attach to VESA brackets for a more flexible location to add tablet displays in your operation.

Pedestal Mounts

Elevate your detachable kiosk dock with 7 and 14-inch pedestal mounts. Drill it down or pair with a C-Clamp base.

RAM® Pogo Pin Form-Fit Vehicle Docks

Take advantage of the built-in pogo pad docking contacts of each ET4x tablet and pair with a pogo pin vehicle dock for convenient charging throughout the workday. Simply dock the tablet in the form-fitting RAM® dock mounted to any vehicle and reduce device downtime.

Accessory Compatible

These vehicle docks have built-in space to allow for ergonomic accessories, Zebra Expansion Backs, and PowerPacks

RAM® Pogo Pin Form-Fit Vehicle Docks

These versatile docks feature use case-driven enhancements like patented 3-D Float™ self-aligning docking pads, heated pogo pins, keyboard latch, and CAC reader accessibility to help you tackle a variety of different tasks without risking device downtime.

Key Features

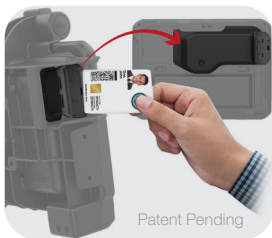

Self-Aligning Docking

Unique triple-molded technology provides enhanced tablet contact to pogo pin alignment, plus additional shock and vibration damping.

Heated Pogo Pins

Heating elements prevent pogo pins from locking up, allowing tablet operation in wet and freezing environments.

CAC Reader Access

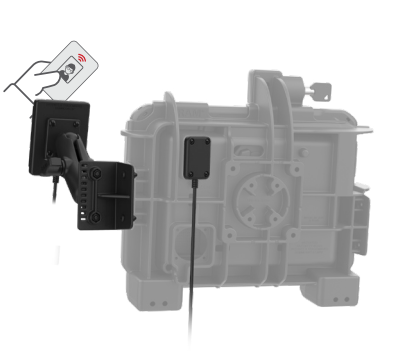

Cut out on the side of the dock gives access to the Zebra CAC reader with the ability to open/close the CAC reader door.

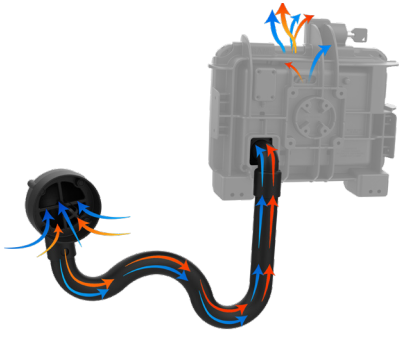

Keyboard Compatible

Docking latch allows the keyboard to open and close independently while the tablet remains docked.

ET80 / ET85

RAM® Pogo Pin Form-Fit Vehicle Dock

Upgrade your bulky laptop to the Zebra ET80/ET85 and ruggedize with RAM® docking stations. These docks support the device with or without the Rugged Frame, with or without the Friction Hinge Rugged Keyboard, and accommodates tablet add-ons.

Key Features

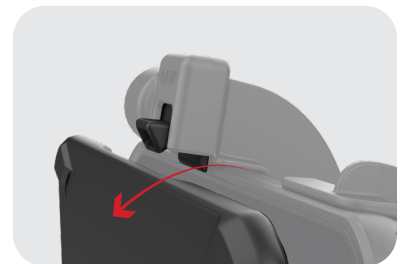

Pogo Pin Dock Contacts

Integrated pogo pin contacts provide charging power to the device and protects the device's ports from constant plugging and unplugging.

Add-on Capable

Includes accessory add-on bracket with 2-hole AMPS pattern for additional device mounting and cable management.

Keyboard Compatible

Docking latch allows the keyboard to open and close independently while the tablet remains docked.

TC201 / TC501 / TC701

New RAM® Form-Fit Vehicle Docks

Purpose-built for the Zebra TC201, TC501, and TC701 mobile computers, RAM® mounting and docking solutions deliver secure device retention, fast one-handed docking, and flexible charging options to keep workers productive.

Key Features

Pogo Pin Charging

Uses integrated pogo pins and device docking contacts to protect the charge port and enhance ruggedness.

USB-C Direct

Integrated USB-C connector supports charging, data transfer, and Workstation Connect, enabling fast, confident docking while reducing connector wear.

Wireless Charger

Add a RAM® Wireless Charger to non-powered versions of TC501/TC701 dock for wireless charging capabilities.

EM45

IntelliSkin® with GDS® Tech™

With next-generation durability, fast charging capabilities, and user-friendly design, IntelliSkin® delivers a powerful boost in efficiency for the Zebra EM45 / EM45 RFID.

Port Protection

IntelliSkin® is the only case system on the market that protects the device port and converts the connection point to ruggedized pogo pads for charging and data transfer.

Pogo Pin Connection

Unlock the GDS® Ecosystem™ with a large collection of docks built with an integrated Distinctive D Shape™ pogo pin connector for a hassle-free user experience that helps increase efficiency.

USB-C Access

An integrated external USB Type-C port is conveniently accessible, providing a reliable connection option for charging or data transfer when a GDS® Dock™ is not available.

RAM® Pogo Pin Form-Fit Vehicle Dock

Designed to enhance handheld touch computers from Zebra, RAM® has a purpose-built feature set specifically to maximize performance, ease of use, data capture, security, and manageability—all in one revolutionary durable design.

Patent Pending

Heated Pogo Pins

Heating elements provide the necessary heat required to prevent pogo pins from locking up, allowing them to operate in wet and freezing environments.

Easy Docking

This holder is spring-loaded, making it easy for one-handed docking and removal. Securing the device from both ends allows safe docking position at any angle.

Pogo Pin Charging

Protect the charge port and increase efficiency—simply dock the scanner to keep the device charged and/or connected to peripherals.
